

§ 749.2

(d) Emergency contact information for employees, officials, regulatory offices, and vendors used to support vital records.

[72 FR 42273, Aug. 2, 2007]

§ 749.2 Vital records preservation program.

The board of directors of a credit union is responsible for establishing a vital records preservation program within 6 months after its insurance certificate is issued. The program must be in writing and contain procedures for maintaining duplicate vital records at a vital records center. The procedures must include: designated staff responsible for vital records preservation, a schedule for the storage and destruction of records, and a records preservation log detailing for each record stored, its name, storage location, storage date, and name of the person sending the record for storage. It is recommended credit unions include in these procedures a method for using duplicate records to restore vital member services in the event of catastrophic act. Credit unions which have some or all of their records maintained by an off-site data processor are considered to be in compliance for the storage of those records if the service agreement specifies the data processor safeguards against the simultaneous destruction of production and back-up information.

[72 FR 42273, Aug. 2, 2007]

§ 749.3 Vital records center.

A vital records center is defined as a storage facility, which may include another federally-insured credit union, at any location far enough from the credit union's offices to avoid the simultaneous loss of both sets of records in the event of a catastrophic act. A credit union must maintain or contract with a third party to maintain any equipment or software for its vital records center necessary to access records.

[72 FR 42273, Aug. 2, 2007]

§ 749.4 Format for vital records preservation.

Preserved records may be in any format that can be used to reconstruct the credit union's records. The format

12 CFR Ch. VII (1–1–11 Edition)

used must accurately reflect the information in the record, remain accessible to all persons entitled to access by statute, regulation or rule of law, and be capable of reproduction by transmission, printing, or otherwise.

[72 FR 42273, Aug. 2, 2007]

§ 749.5 Format for records required by other NCUA regulations.

Where NCUA regulations require credit unions to retain certain writings, records or information, credit unions may use any format that accurately reflects the information in the record, is accessible to all persons entitled to access by statute, regulation or rule of law, and is capable of being reproduced by transmission, printing, or otherwise. The credit union must maintain the necessary equipment or software to permit an examiner to access the records during the examination process.

APPENDIX A TO PART 749—RECORD RETENTION GUIDELINES

Credit unions often look to NCUA for guidance on the appropriate length of time to retain various types of operational records. NCUA does not regulate in this area, but as an aid to credit unions it is publishing this appendix of suggested guidelines for record retention. NCUA recognizes that credit unions must strike a balance between the competing demands of space, resource allocation and the desire to retain all the records that they may need to conduct their business successfully. Efficiency requires that all records that are no longer useful be discarded, just as both efficiency and safety require that useful records be preserved and kept readily available.

A. What Format Should the Credit Union Use for Retaining Records?

NCUA does not recommend a particular format for record retention. If the credit union stores records on microfilm, microfiche, or in an electronic format, the stored records must be accurate, reproducible and accessible to an NCUA examiner. If records are stored on the credit union premises, they should be immediately accessible upon the examiner's request; if records are stored by a third party or off-site, then they should be made available to the examiner within a reasonable time after the examiner's request. The credit union must maintain the necessary equipment or software to permit an
